

Floor Care Services

Between deliveries, heavy cart usage, and busy work environments, commercial and medical facility floors see higher traffic than other floors. By doing comprehensive regular floor cleaning and scheduled mechanical maintenance, we can help remove build-up and preserve your floors making your space clean and safe for customers.

Some of the services we provide are:

- Mechanically scrub floors
- Stripping and waxing floors
- High-speed buffing
- Carpet cleaning

All of our employees are carefully screened and vetted to ensure they are of the highest moral and ethical character, they are dedicated to their trade, and are experts in the art of quality care.

We also provide:

- Customized floor maintenance schedule
- Background checks, training documentation, and shot documentation for all employees
- Service check-lists with employee verification
